EDUCATION

- **PES UNIVERSITY** Bengaluru, Karnataka
B.Tech in Computer Science; CGPA: 8.0 Sept. 2022 – June 2026
- **Sri Chaitanya PU College** Bengaluru, Karnataka
PCMC; 12th CGPA: 9.3 May 2020 – July 2022
- **BGS National Public School** Bengaluru, Karnataka
CBSE; 10th CGPA: 8.7 July 2013 – April 2020

EXPERIENCE

- **Intern — Goseeko EdTech** Bengaluru, India
Data Science Intern June 2024 – Aug 2024
 - **Model Development:** Built ML models for classification tasks using Python (NumPy, Pandas, scikit-learn).
 - **Data Automation:** Automated preprocessing pipelines including null handling, encoding, scaling.
 - **Evaluation:** Evaluated models using accuracy, precision, recall, F1-score to recommend best algorithms.
 - **Visualization:** Created visual insights using Matplotlib/Seaborn for product decision-making.
- **Intern — Goseeko EdTech** Bengaluru, India
Machine Learning Intern June 2025 – Aug 2025
 - **Time-Series Forecasting:** Built demand forecasting models using ARIMA and LSTM.
 - **Analysis:** Analyzed trends, seasonality and tuned sequence length & hyperparameters for low MAPE error.
 - **Comparison:** Compared ARIMA vs LSTM and visualized predictions to highlight forecasting patterns.

PROJECTS

- **Financial Fraud Detection using Machine Learning**
Python, scikit-learn, XGBoost, SMOTE
 - **Modeling:** Built fraud detection pipeline on highly imbalanced transaction data.
 - **SMOTE:** Applied SMOTE to oversample minority fraud class and improve recall.
 - **Comparison:** Evaluated Logistic Regression, SVM, XGBoost achieving high precision on fraud class.
 - **Explainability:** Used feature importance tools to interpret key predictors.
- **Movie Recommendation System (Hybrid Model)**
Python, NLP (TF-IDF), cosine similarity, Surprise (SVD)
 - **Hybrid Approach:** Combined content-based similarity with collaborative filtering (SVD).
 - **Feature Extraction:** Used TF-IDF and cosine similarity for text feature extraction.
 - **Personalization:** Achieved strong RMSE scores with SVD-based collaborative filtering.
 - **Output:** Generated personalized Top-N recommendations for each user.

SKILLS

- **Programming:** Python, SQL, C++, R
- **Libraries:** NumPy, Pandas, Matplotlib, Seaborn, scikit-learn
- **ML Skills:** Classification, Regression, Time-Series, Recommendation Systems, Feature Engineering
- **Tools:** Jupyter Notebook, Git, Excel

ACHIEVEMENTS & RESPONSIBILITIES

- **DAC Scholarship:** Awarded for consistent academic performance over 6 semesters.
- **Club Leadership:** Former Head of Terpsichore Dance Club — managed 40+ members & university events.
- **Industry Experience:** Completed ML internships involving real-world data analysis and model building.
